Camping «Le Pre du Moulin» offer you a nice relaxing vacation in the midst of beautiful, tranquil nature. The campsite has been given high quality \*\*\*-standard for many years.

The camping is situated in the heart of the Corrèze, in a wooded valley on the banks of a small river. The terrain is flat and hedges, for your own privacy, separate the 22 plots of 100 to 150 sq m each.

The campsite lies 300m up the hill, but is easily accessible by car, caravan or motorhome. From the N1120, which runs through the village of Laguenne, it is approximately 1 km driving on a unsealed road. For your every day shopping, a large super-market is nearby in Laguenne, 5 minutes drive by car. The English owners can give you, before and during your stay, all information in the French and English language. All the plots can be provided with electricity (6A) and fresh water points are situated around the site. There is a telephone booth at the reception. The camping is open from the 1st April till the 1st October. Unfortunately we do not accept children during the period of April, May, June and September.

Vacationers, who do not have their own camping gear, can move into one of our two wooden chalets. They are fully equipped but without sanitary facilities, traditionally built to blend in with the natural environment. The chalets are situated halfway in the forest surrounding our campsite and can be rented on a weekly basis.

The many small authentic villages, situated in a magnificent setting, make the Corrèze a true paradise for the active lovers of nature and their children.
